Edited by **Sarah Fletcher** *Independent Consultant* and **Carol A Mullen** *University of North Carolina at Greensboro*

This Handbook is a leading source of ideas and information. It covers national and international research on schools, higher education, and disciplines within and beyond education. The editors draw together contributions and present evidence bases and alternative worldviews in which concepts are both untangled and substantiated. Unique in its coverage, this handbook maps current knowledge and understanding, values and skills underpinning educational mentoring and coaching for learning. Contributors who are leading scholars and practitioners address issues of theory and practice in school, higher education, and other educational contexts, and they set out practical applications of coaching and mentoring for practitioners and researchers.

The **SAGE Handbook of Mentoring and Coaching in Education** is an essential reference for practitioners, researchers, educators, and policymakers.
